AMANDA MYERS

PLATFORM DESIGN MANAGER & FULL STACK DEVELOPER

PERSONAL PROFILE

I bring an engineering perspective and creative problem-solving approach to create products and experiences people love to use. Persistence, curiosity, and an obsessive attention to detail define me. With an extensive background in full-stack software development, years of experience in digital design, and proven leadership across multiple B2B and B2C teams, I am competent in all aspects of the product design process, and in leading the teams that create these experiences.

WORK EXPERIENCE

PLATFORM DESIGN MANAGER

HealthStream | 2019 - Present

- Lead platform design strategy within the organization across 18 + teams and multiple business units.
- Create and lead a design system that not only addresses product look and feel, but additionally, designer to developer handoffs, usage guidance, design token implementation, coded component implementation, success measurement, and user research to ensure that our products are solving the problems that we're trying to solve.
- Bring together efforts of both B2B and B2C software user experiences based on personas.
- Building and empowering teams to innovate and create great products with incredible user experiences.

SENIOR DEVELOPER - UX

HealthStream | 2016 - 2019

- Product design, strategy, and leadership across multiple cross functional and creative teams.
- Initiated and lead design system effort across the ecosystem.
- Designed and lead front-end development for highly successful MyTeam dashboard platform.
- Spearheaded initial ecosystem authentication design.
- Lead efforts to bring Google Tag Manager to HealthStream and provided guidance and training to multiple departments.

SENIOR SOFTWARE DEVELOPER

Cigna - HealthSpring | 2013 - 2016

- Lead redesign effort for Provider Portal application used by over 1 million providers, including on-site visits and customer interviews to inform design decisions.
- Instrumental in moving HealthSpring to a more design centric organization by implementing monthly design syncs across multiple teams.
- Lead effort to move HealthSpring to the Bootstrap front-end framework.
- Continuously went above and beyond by serving as front end / UI consultant across more than 10 teams in addition to my own team requirements and expectations.

WORK EXPERIENCE (CONTINUED)

SENIOR SOFTWARE DEVELOPER
nTelagent | 2008 - 2013

- Rewrote point-of-service application for managing medical facility accounts receivable in .NET MVC
- Created Advanced Beneficiary Notification module to preemptively report coverage decisions for procedure and diagnosis combinations.
- Created Contract Calculator module to manage contracts between medical facilities and insurance providers to deliver accurate procedure pricing to the facility.
- Implemented e-signature functionality for receipts and forms.
- Instrumental in acquiring Payment Card Industry (PCI) Level 1 Service Provider compliance.
- Implemented credit card and check payment processing.
- Worked on HL7 insurance verification front end. (HL7/X12 270, 271, 278)
